@eaca_eu #AdIndex2018

The colour codes for each country are based on January 2018 values of the Advertising Business Climate Index. The lowest value (Italy, -28) is highlighted in red and the highest value (Denmark, +33) in dark green, while all others are marked with different shades that lie within the spectrum. The colour coding for a specific month is adjusted to that country's position relative to the others, with the midpoint being 0 (marked in yellow). In other words, the country with the highest value in the given month determines the level of green of the other values above 0 that month. Subsequently, the lowest value determines the level of red for the values that are below 0.
